Next month's priorities

1
Complete the toddler cup retest and upload the new CPC before the old report expires
OWNER: BRAND QA LEAD

2
Send the new main image for the one suppressed listing
OWNER: BRAND

3
Confirm inbound units match listing images after the packaging change
OWNER: BRAND OPERATIONS

4
Re-check pesticidal wording after the next listing update
OWNER: LIVELE

Document register: what expires next

ITEM	SCOPE	EXPIRES	STATUS
CPCs, toddler cup line	3 SKUs	41 DAYS	Retest booked with the lab. Brand signs the updated CPC.
Test report, bamboo tableware	2 SKUs	74 DAYS	Lab quote requested by brand QA.
Pesticide registration paperwork	2 listings	88 DAYS	On file. Renewal reminder set.
Supplier declaration, silicone feeding set	1 SKU	24 DAYS	Supplier has the request; due in 2 weeks.

Findings this month

- Suppressed listings: 4 found, 3 fixed (missing attributes). One waits on a new main image from the brand.
- Pesticidal claims: “Repels insects” removed from one bullet on 2 new listings. Re-check after the next listing update.
- Risk register: a supplier changed packaging without notice. Confirm inbound units match the listing images.

Sample excerpt. Account Health Assurance eligibility depends on Amazon's own rules and can change.
